ANIMESH KATIGAR

WEB DEVELOPER

About Me

I am a self-taught, hardworking, and organized individual. My passion lies in designing, developing, and testing websites. My greatest strengths are excellent presentation, creativity, teamwork, and analytical skills. Looking for a challenging role in a reputable organization to utilize my mastery for the growth of the organization as well as reinforce my knowledge about the new and emerging trends in the IT sector.

Work Experience

Frontend Developer

Namasys Consultants Pvt Ltd., Delhi · Mar 2021 - Jun 2021

- Worked on 5 Projects: NUWEBAPP (AI app), Project Management (Task manager), FINESSE STEALTH (Ecommerce app), SACRD (Financial app), and NAMASYS TABLE (Flexible Table Package).
- Out of these, NUWEBAPP, Project Management, and NAMASYS TABLE were built from scratch. I was handled with the responsibilities of **developing web pages**, **communicating** with clients, **integrating APIs**, application **testing**, etc.
- In "SACRD" my responsibilities were to handle new changes, **refactor code**, testing of the web application and in "FINESSE STEALTH" my responsibilities were to make the design **mobile responsive**.

Frontend Developer

The Vouch Digital, Mumbai · Nov 2020 - Jan 2021

- Worked on the frontend part of VAVO Web application. This project was aimed at the marketing of brands, where the brands can hire influencers to market their products.
- My main tasks were to develop web pages, integrate APIs, and **debugging**.

Projects

Covid Tracker   Link   Code
A coronavirus live-stats tracker with a Map, Past-data graph, and Country cases. (ReactJS)

Crypto   Link   Code
A simple minimalistic web app that displays live information of the crypto coins such as Bitcoin, Ethereum, Dogecoin, etc. (ReactJS)

Space Invaders   Code
An arcade shooter game which reminds you and brings you back to the golden era. (Python, Pygame)
